TECHNICAL SKILLS

Experience With

- HTML
- CSS
- JavaScript
- C with small-scale embedded systems
- Python with data analysis and visualization
- Java

PROJECTS

Participated in a group project in which my group and I designed a forum that utilized a database. I was responsible for the public portion of the website, or the section of the site which anyone could access without a membership. I used HTML, CSS, JavaScript, SQL for the database code, and Java for database connection. I also integrated all group code and took on responsibility for stylizing all webpages by using CSS to create a cohesive website.
